

# Get Agile

## AGILE EXECUTION TRAINING

### Need Projects Done Faster, Better?

Too many priorities. Constant scope creep. Changing expectations. Limited resources. Sounds familiar? Most people struggle to keep up with growing demands and changing expectations. Projects become delayed chronically. Quality is compromised in an attempt to respond to the needs of the moment. Clients become frustrated with not getting what they expect.

### The Challenge

- Accelerating need to do more with limited resources
- Difficulties managing change effectively
- Unclear customer expectations
- Over reliance on few specialized resources
- Challenges holding people accountable for results

### Get Agile Execution Training

Become more agile at managing changing priorities, client expectations and project resources. The Ascent Agile Training teaches participants how to lead projects successfully to deliver quality work on time and within budget consistently. During the Ascent Agile Training participants learn a proven process, practical skills and specialized tools getting work done faster and better.

### The Solution

- Get teams focused on the most critical priorities
- Manage changing priorities with a dynamic dashboard
- Work in sprints to adapt to changing needs
- Hold regular scrums to hold teams accountable
- Deliver projects on time and within budget consistently

### Ascent Agile Execution Training

The Ascent Agile Execution Training helps participants get projects done faster and better. Participants learn the proven principles and practical applications for agile project execution. The Ascent Agile Execution Training consists of 12 hours of instruction delivered over three 4-Hr. Workshops. Each workshop builds incremental knowledge and skills to apply what participants learn.

- Agile Principles and Mindset
- Agile Practices and Tools
- Agile Applications and Roll-Out

To optimize implementation of agile concepts, each workshop is followed by Agile Application coaching and online learning resources. This approach ensures that learning and skills are transferred and applied. The Ascent Agile Execution Training delivers action learning where participants learn by getting work done.

- Three 4-Hr. Workshops – Total of 12 hrs. of training
- Three Application Coaching sessions – Total of 12 hrs. of coaching
- Agile Online Learning Resources – Site License for 6 months

### Our Value Proposition

We understand that you expect to see results when you invest in agile execution training. That is why we base our success on achieving your desired outcomes. After the Ascent Agile Training, participants will be able to tackle their most complex projects with confidence.
